Books are Better than Television

Joshua Jardine

See, I knew you were convinced that books are better then television and that's why	15
you've kept reading this persuasive text to find out what my third and final reason is	31
for why books are better. Remember that blackout from earlier? Ever been on a long	46
car trip? Plane ride? What have they all got in common? That's right...No Power!	60
Without power a television won't work and you will be absolutely bored. A book on	75
the other hand doesn't need power so it will work every time and anywhere. You will	91
never be bored again! Again, it is so obvious that books are better that television cause	107
they don't need power.	111
Some people might say that television is better than a book because you have videos	126
and sound but hello, have these people been living under a rock? Have they never	141
heard of iBooks before? If you download an iBook you get all the advantages of	156
television like sound and movies but you also get the benefits of a book so it's a	173
win-win. Show me a television show that can do that.	184
And there you have it folks, the definitive, and 100% true, guide to why books are far	201
superior to television. If you are ever asked this questions again, just remember that	215
books make you smarter, how there are a million different stories to read and how	230
books don't require power. Well...what are you waiting for? Get Reading!	241
