Persuasive Speech Global Warming

Various

Good afternoon ladies and gentlemen. My name is John Doe and today I will be discussion Global Warming and what you can do to limit its impact on the planet.	15 30
There is little doubt that the planet is warming. Over the last century, the planets temperature has risen by around 1 degree fahrenheit (0.6 of a degree celsius). The warmest since the mid 1800's was the 1990s. The hottest years recorded were 1997, 1998, 2001, 2002, 2003.	45 60 74 78
The United Nations panel on climate change projects that the global temperatures will rise 3-10 degrees fahrenheit by the century's end – enough to have the polar caps all but melted. If the ice caps melt, a vast majority of our countries borders will be under water. Monuments and great buildings, as well as homes and lives will be under water, including New York City.	91 108 125 140 144
So now we know what some of the causes are for global warming, how can we as individuals do our part to help save the planet?	161 170
The answer is simpler than you may think. You don't have to go miles away from home to protest, or spend masses of money. If you try to follow the few simple steps that I shall now give you, you will have started to help us all.	186 203 217

Good afternoon ladies and gentlemen. My name is John Doe and today I will be discussion Global Warming and what you can do to limit its impact on the planet.

There is little doubt that the planet is warming. Over the last century, the planets temperature has risen by around 1 degree fahrenheit (0.6 of a degree celsius). The warmest since the mid 1800's was the 1990s. The hottest years recorded were 1997, 1998, 2001, 2002, 2003.

The United Nations panel on climate change projects that the global temperatures will rise 3-10 degrees fahrenheit by the century's end – enough to have the polar caps all but melted. If the ice caps melt, a vast majority of our countries borders will be under water. Monuments and great buildings, as well as homes and lives will be under water, including New York City.

So now we know what some of the causes are for global warming, how can we as individuals do our part to help save the planet?

The answer is simpler than you may think. You don't have to go miles away from home to protest, or spend masses of money. If you try to follow the few simple steps that I shall now give you, you will have started to help us all.
